

## Child Find

School Administrative Unit 21 actively tries to locate any un-served children with educational disabilities (or with suspicion of educational disabilities), who reside within the SAU 21 school districts. We are interested in any children, age 0-22 who may have mental, emotional, or physical limitations. We may be able to provide services that could make a lasting difference for these children through referring, identifying, and evaluating their needs. If you are aware of any un-served children, please bring them to our attention by contacting South Hampton Special Services Office at 603-394-7744.
